You will be able to find SSID & WiFi Password/PIN on the back of your router.

How To Connect To Mobile Broadband

- 1 Ensure that Cellular antenna is attached correctly.
- 2 Ensure that SIM card is Active and inserted correctly.

3 Manually set up Mobile Broadband connection.

The following steps will take you through the process of setting up your Mobile Broadband connection.

- Open a web browser (such as Internet Explorer, Google Chrome or Firefox).
- Type http://192.168.20.1 into the address bar and press Enter.
- At the login screen:

Type *admin* into the Username field and *the router serial number* into the Password field

- Click the Log In button
- Navigate to Advance setup > Mobile Broadband
- Click Edit, and manually select 3G or LTE option from the dropdown list.
- Click Apply/Save button and Reboot.
- **On Successful connection**, your Internet and LTE LED will be lit, and the corresponding LTE Signals LEDs will indicate signal strength.

If your Broadband is still not working ...
